SAOT Membership #	<i>(for Alberta O.T.)</i>		
Nominator Information			
Name		Contact phone #	
Address		E-mail address	
SAOT Membership #	<i>(optional)</i>	Signature	Print Name
Performance Evidence			
Preceptor Behaviours	Provide a description of how the preceptor effectively promoted critical thinking through role modeling, facilitation, guidance and prioritization of tasks and client/patient goals. (60 words)		
Practice Applications	Describe how the preceptor used, demonstrated and taught current theoretical, research-based and tacit knowledge in response to client/patient needs and intervention planning. (60 words)		

Communication	Describe how the preceptor successfully imparted information, expressed ideas and gave instructions. Comment about how he or she maintained a positive relationship with you. (60 words)
Skills Development	Describe how the clinical preceptor was actively involved in your clinical learning and practical development. How did you know you were doing something right? (60 words)
Facilitation and Guidance	Linked to above statements, describe how the preceptor facilitated your reflection in clinical care and guided your approach to making clinical decisions. Provide examples of how the preceptor modeled clinical reasoning and initiated meaningful dialogue about professional practice. (60 words)
